SPORTS MEDICINE

For more than 20 years, Jennie Edmundson Sports Medicine has provided area high schools with prevention and care of athletic injuries.

This fall, we are happy to once again extend those same services to participants in Western Iowa Youth Sports!

If your child or any member of WIYS needs diagnosis of an injury, you are encouraged to call the certified athletic trainer listed below for your particular district. These are the same professionals who treat the Varsity athletes from your school system each day.

Jennie Edmundson thanks you for the opportunity to serve your school and the WIYS!

Jennie Ed Sports Med Team Members:
