SPORTS MEDICINE

For 20 years, Jennie Edmundson Sports Medicine has provided area high schools their sports medicine coverage.

Today, we are happy to extend those same services to participants in Western Iowa Youth Sports!

If your child or any member of WIYS needs diagnosis of a sports injury, you are encouraged to call the certified athletic trainer listed below for your particular district. These are the same professionals who treat the Varsity athletes from your school system each day.

Thank you for this opportunity to serve you and we look forward to our new partnership with WIYS!
